Phantom Power!

Many things that use electricity even use some power when they are turned off (but still plugged in). This is called “Phantom Power”.

Challenge!

Walk around your house and look at devices that are plugged into the wall. Make sure they are turned off. Do you see any “Phantom Power”?

Hint: Look for little lights on the device that stay on when you turn it off

Which Room?	Which Device?	Describe Any “Phantom Power” (make sure device is turned off, but still plugged in)
Hall	TV	Red light in the back.
Kitchen	Time clock	Green light in the numbers.
Office room	Wi-fi	White light on top.
Office room	Printer	Green light on top
Bedroom	Chromebook	Red light in the side

Draw a map of your house and show where your family is using Phantom Power!
