

FOOD WASTE

Think back over the past week. What items of food have you thrown out? This can include: fruit and vegetable peels, rotten food, food that has fallen on the ground, tops and ends of fruits and vegetables, food that you did not like, stalks, cores and stems, etc.

1. Cookie
2. Orange peel
3. Fries
4. bread
5. Naan(bread)
6. Cucumber peel
7. Apple peel
8. Yogurt
9. pudding

On Friday, we will write down the ways that you could have saved or re-used those items.

I should have put all the fruit peels and original things in the compost.

And the wrappers in the garbage.
