

FOOD WASTE

Think back over the past week. What items of food have you thrown out? This can include: fruit and vegetable peels, rotten food, food that has fallen on the ground, tops and ends of fruits and vegetables, food that you did not like, stalks, cores and stems, etc.

1. I have thrown out a granola wrapper.
2. We had to throw out some moldy buns (c)
3. We also threw out some old pork (c)
4. A goldfish package

On Friday, we will write down the ways that you could have saved or re-used those items.

I think I could have used the pork and buns when it wasn't moldy and old to make a sandwich instead of throwing it out because it grew old.
