	Wind	Solar	Geothermal	Hydropower	Biofuels	Ocean	Total money spe	Which renewable energy resource do you think is the best choice and why?	
Student A	2000	1000	2000	1000	2000	2,000			
b	$1,000.00	$2,000.00	$1,000.00	$4,000.00	$1,000.00	$1,000.00	$10,000.00	I think Hydropower is the best choice because of the water cycle, we have a lot of water to use for energy and with the right kind of dams, we can have a cleaner and safer enviroment.	
c	1666.66667	1666.66665	1666.66667	1666.66667	1666.66667	1666.66667		I think Geothermal energy is the best. I did it all equal because I think all the pros and cons where equal to all other explanations	
d	$1,000	$2,000	4000	120	1880	1000	10000		
e	2000	1500	500	3000	2000	1000	10000		
f	1000	2000	1000	2,500	1000	2,500	10,000	If I did this again I would probably chose ocean because I love the ocean and it seemed really intresting. So I chose ocean.	
g	400	200	100	100	200	100	1100		
h	500	5000	50	5	50	0	5605	I would have done solar if I new this was a debate, so I pick solar because it gives you energy for one whole day.	
i	400	4000	100	3000	2000	500	10000	Solar. Becuase it automaticly turns off your electricity at night.	
j	400	200	50	50	100	200	1000		
k							0		
l	1000	3000	2000	1500	2000	500	10000	I think hydropower is the best because it is really cool and the presentations about hydro power taught me a lot	
m	500	3,500	1000	1000	2000	2000	10,000	I think that solor enrgy because it may cost a lot of money but there is really good stuff about solor panel	
n	2000	1000	2000	1000	2000	2000	10000	I think Geothermal energy is the best energy source because its just amazing how you're able to just use the heat from the ground and convert it into energy!	
o		10000					10000	I think solar energy is good because it can decrease the bills and it taught me a lot!	
p							0		
q		3000		2000	5000		10000	i think hyrdo power is the best because it does not pouloote the air.	
r		5000				5000	10000		
s	2000	2000	2000	2000	1000	1000	10000	I think Hydropower is the best because it does not have alot of cons and I think it is a good way to make energy.	
t	1	9995	1	1	1	1	10000	beacause I persanolly think Solar power is the best.	
u	1999	1009	800	1000	999	1998	7805	I think wind energy was the best choice. (not because I did it) Bur because I think there was a lot to say about it!	
v							0		
w		*2,000*					2,000	i vote boifuels becuase it had some instasting research =]
