

Do Not

1. Leave the lights on all the time. You can open a window for light.

2. Leave things plugged in all the time.

How To Save Energy

By Leanne, Emily and Khloe

1. Turn off the light when you leave a room.

2. Unplug things that don't need to be plugged in.

3. To get rid of Phantom Power, unplug a phone when it is at 100% for example.
