

Bike Share Mexico City

Using a bike is smart mobility.
They will use the bikes so they don't need to use gas.

Ecobici created the bike sharing.

The Reformas closure to car traffic on Sundays in 2007 kickstarted the capital's attempts to make life easier for cyclists.

Bike sharing was made in 2010.

Where the first place with the bike share is in the United states.

They are growing the number of bike sharing.

Ecobici reduced 8% of taxis use and 5% of private car use reduced carbon emissions by 499 tons CO₂.

The bike can be parked wherever you want.
