

Daily Tips And Tricks

Tip One:

Unplug electronics when not in use

Tip Two:

Turn off the heater or air conditioner when you are not home

Tip Three:

Turn off the water when you are brushing your teeth

Tip Four:

Buy LED lights to save energy

Tip Five:

Turn off the lights when not needed or leaving a room.

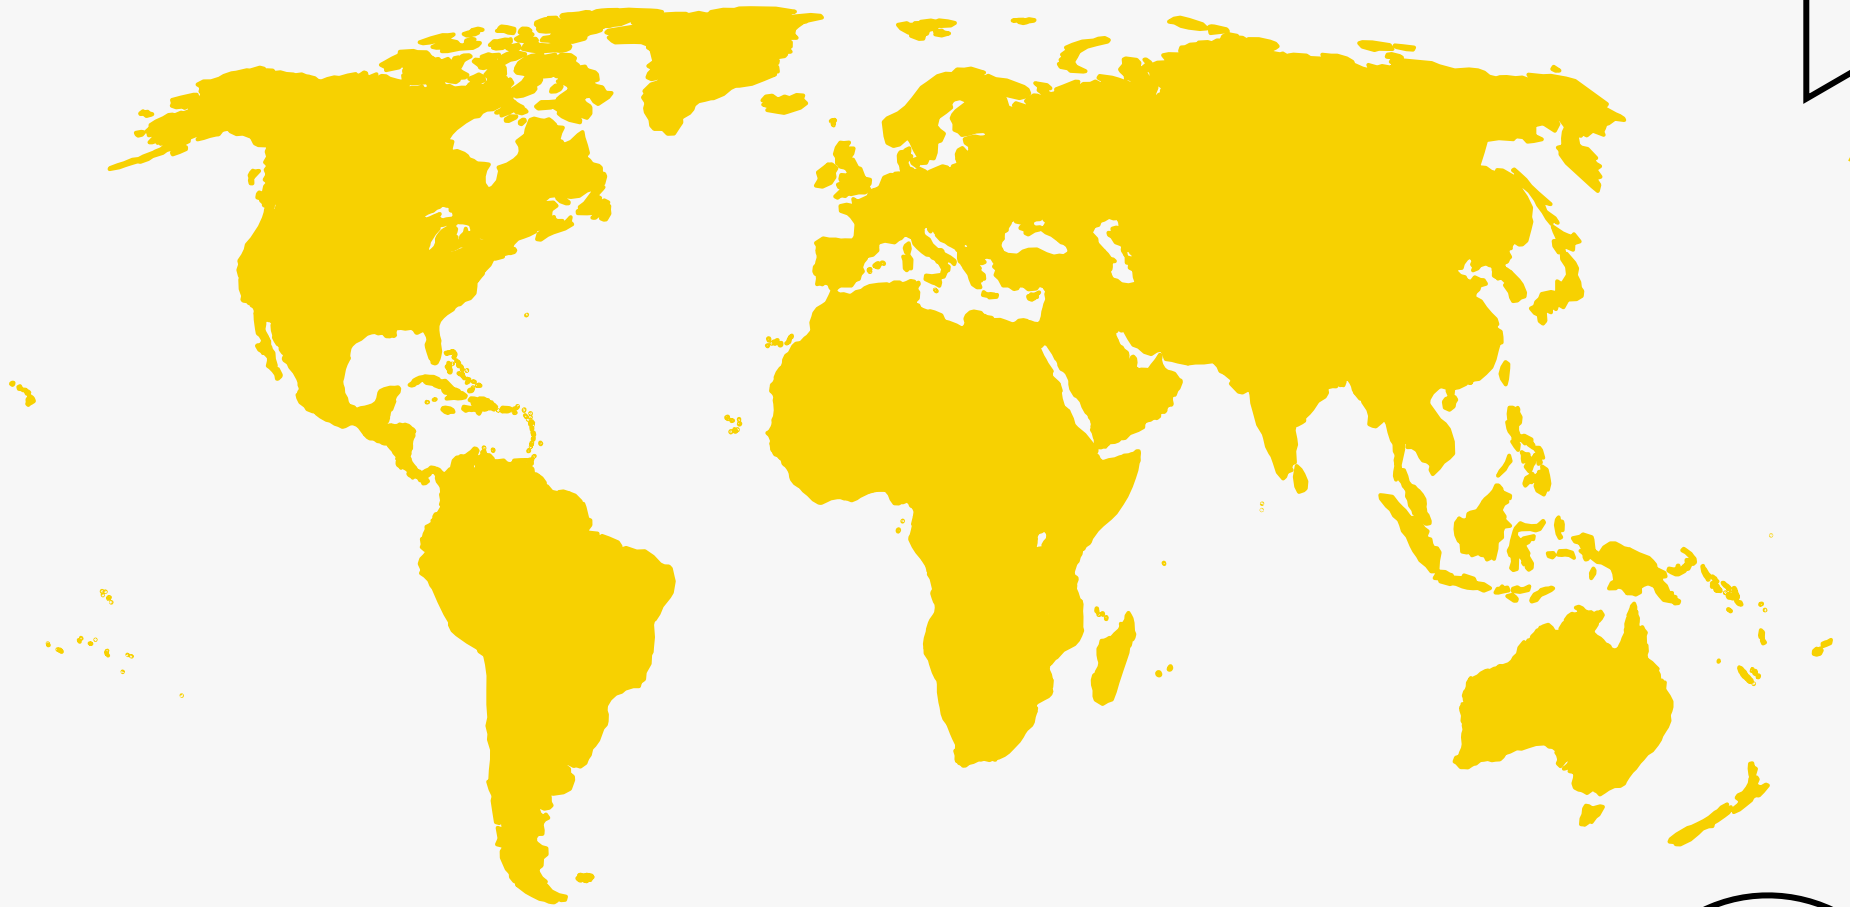

Tip Six:

Keep the exterior doors closed as to keep regulated temperature inside the house.

Tip Seven:

Walk or
bike
instead of
driving

Tip Eight:

Read for a while every day rather than a use a computer or smartphone.

Tip Nine:

Turn off Television when you're not watching it

Tip Ten:

Only do the laundry when you have a full load

Tip 11

Use ceiling fans rather than turning up/down the thermostat

Tip Twelve:

Take Cold to lukewarm showers instead of a hot shower.

Tip Thirteen:

Take Shorter Showers and Avoid using Bathtub

Tip Fourteen:

Fix leaking water sources as soon as possible.

Tip Fifteen:

Use the microwave, because a 15 minute microwave does approximately the same as a 1 hour oven

Tip Sixteen:

Pick what you want to eat, before opening the fridge

Tip Seventeen:

When cooking with a pot put a lid on it.

And be a logical person who
doesn't lie

**Tip Eighteen:
Tell your parents to buy a more
environmentally-friendly type
car, such as an Electric Car,
instead of a current Gas Car.**

Tip Nineteen:

Tip Twenty - Last One!

Do all the tips we've talked about.

How many of you **ACTUALLY** did the tips, after we explained them?

Knowing what we talked about doesn't help if they aren't actually applied in your day-to-day life
