

ECO DRIVING

- *Improve road safety*
- *Save hundreds of dollars of gas*
- *Avoid expensive speeding tickets and repairs*
- *Prevent wear on your vehicle*

- Don't Speed! -
Driving at lower speeds can greatly reduce fuel consumption

- Accelerate Gently! -
The harder you accelerate, the more fuel you use

- Combine Trips! -
Try to plan your route to combine many stops into one trip

- Anticipate Traffic! -

Look ahead while you're driving to see what's coming up

- Don't Idle! -
Turn off your engine when you've stopped for more than 60 seconds, except when in traffic
