Things I use everyday that require energy, and time spent using them:

What I use	How long I use it
Electrical tooth brush (Morning and Night)	2 minutes in morning 2 minutes at night
Light from a lightbulb	all day except when its sunny
Computer	2 hours
Phone	1 hour
Keurig	30 seconds

Need (essential)

The only thing I need is light from a lightbulb, when its not sunny outside.

Want (privilege)

The privileges are a computer, phone, electrical-tooth brush, and a Keurig.

To save energy I will give up using a computer for the next day because it will save energy and reduce the electric bill. Instead, I will read a book and do my homework on paper.
