-EAT FOOD THAT COMES FROM CANADA OR FROM CLOSE COUNTRIES SO LESS FUEL IS WASTED -carlos and luke

t \

-Eat locally sourced food so less gas gets into the air from countries really far away. Also only eat what you need and don't eat something just for the sake of it. Also grow your own food -Craig and Hunter

- - 
  - Eat only the amount you need
  - Try to get local food which is also even better for you because it wouldn't be organic
- 

- 
- Chase and Simo are asking you to grow your own food or by food from local farms like this one! Or this one! or this one 🙄🤔
- Eat food that is grown/produced locally x
