What is old is new again

RA

#1 Bottle bird feeder

I have birds of my own, so I knew how important it is to help them.

#2 Newspaper owl

I knew my mother owned so many newspapers, and I thought I should put them to good use

#3 Crayon world

I loved to do art, and had many crayons from years ago that were starting to crumble.

⚡ Foosball Table ⚡

This is the foosball table I made for a Grade 3 presentation. We made it out of an old box, clothespins (people), sticks we didn't need, and paper for the stands! Now, we play with it when we don't want screen time.

Erica

⚡ Sushi Stand ⚡

This is the sushi stand I made from Grade 2. It's made of an old cardboard box and some old sushi materials we got from Mac's Sushi.

⚡ Cable Box ⚡

This is the cable box we made to clear up the desk. Before, the desk was covered with cables and wires, but now, we put them in the box to charge all the devices.

AA

AA

We have a lot of birds around our house that have quite the appetite.

Nature is bootiful and I love it so I made a hanging planter.

I really love cats but as you can see idk how to make a tail.

I love pebbles and nature so I made a pot with a sprout.

CB

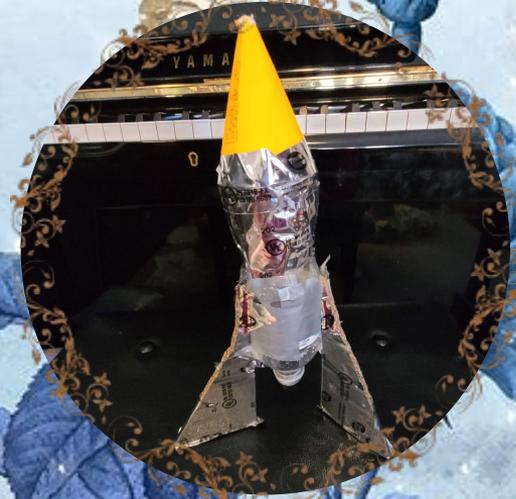

Water Can

I chose to make a water can because I like nature and my flowers and I can use this to sprinkle fertilizer on my fruits/vegetable garden since you cannot put too much fertilizer on one spot.

Elevator

I made an elevator so that you can get things from downstairs to upstairs without even walking, you just need to place the item inside the box then the other person can pull it up.

Rocket

I created a rocket because I have a lot of plastic water bottles and some cardboard.

When I looked in the first category, I could not help but notice the hanging planter! I did not have a plastic bottle, but I had a jar, so I made my own! I enjoy nature so much and I thought it put a little spin on decoration

When I saw you could do pebble art i thought to myself "what is everyone? I'll tell you what they are..... A ROCK-STAR!!!!"

I thought this would be a very cute thing to live in a garden or up at the cottage in the summer, because I love FLOWERS!

This "pencil jar" is made out of a recycled mason jar, paper towel, a hair elastic, and paints! It is used to hold pencils, markers, scissors and more! The inspiration is that me and my family always leave pens lying around the house, so I thought i could make this to make sure it does not happen

WATER BOTTLE FLOWER POT

Bottle flower holder made from a recycled water bottle, old shoelace and decorative flowers to bring some colour into the winter.

WATER BOTTLE CANDLE HOLDER

Bottle candle holder made from a old bottle and with a leftover birthday candle inside so I could have something decorative in my room.

TOILET ROLL BIRD FEEDER

Toilet paper roll bird feeder made from a toilet paper roll, a stick and old shoelaces, with peanut butter and bird seed to hopefully attract a cardinal but it only attracted squirrels.

RJ

We play a lot of games, so I made tic tac toe using felt and bottle caps.

I made small signs that say "Eco-Lution Crew" and "tree" using popsicle sticks

After using the top of a water bottle from the flower I used a bottle cap to make a cute fish which sits on my desk!

I wanted to make a flower and when I saw this I thought it looked really cute so I made it and I love how it turned out!

I had thought of making a paint palette with bottle caps and popsicle sticks since I paint a lot and I normally use extra paper.

KK

My motivation behind this was to show that the earth is not full, of non-renewable energy sources, and we shouldn't take them for granted.

My motivation behind this was I wanted to make a jar for my art supplies. I had some materials, and it would be wasteful to go buy a plastic one from the dollar store.

DM

THIS TREE MADE OF AN EGG CARTON WAS CREATED BY ME TO SHOW MY PASSION FOR NATURE AND LITTLE THINGS WE CAN DO TO HELP SAVE IT, LIKE WHAT I DID RIGHT HERE.

I NAMED THIS PIECE "MINIMA", FOR IT IS QUITE SMALL AND MINIMALISTIC; THIS WAS PURELY CREATED FOR AESTHETIC PURPOSES.

I MADE TIC-TAC-TOE WITH THE LEFTOVER BOTTLE CAPS AND PAPER I HAD LAYING AROUND; WHICH WAS MADE FOR ME AND MY BROTHER TO PLAY SOMETHING TOGETHER EITHER THAN VIDEO GAMES WHILST RETAINING THE ASPECT OF REUSING MATERIALS THAT WOULD OTHERWISE END UP IN LANDFILLS.

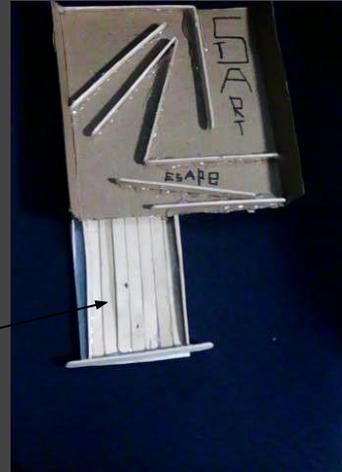

1. Lava Lamp

I was looking for something to make online and I got the idea of making a lava lamp and I had the stuff to make it.

[LAVA LAMP CLICK HERE](#)

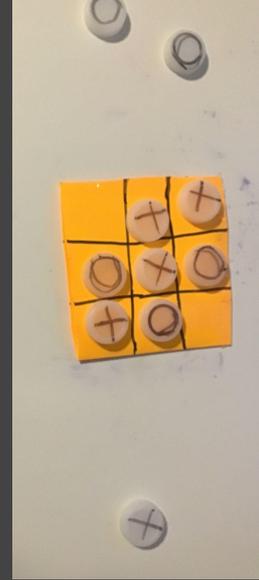

3. Marble maze

I was looking online and found the idea of a marble maze on the website provided by our teacher and I thought it was cool so I made it. The goal of the game is to get the marble to the raft to escape the maze.

2. Tic Tac Toe On The Go

I made this because I saw it on the website our teacher gave in the assignment and I thought it was a good idea but I did not have an old drawstring bag so I made a paper bag.

DM

Description: I wanted to make something easy yet good looking and useful. I came up with the idea to make a pencil holder. The reason I wanted to make it is because we have a lot of pencils and markers, and I knew I could make this out of a bubly can because my parents like the nice and refreshing beverage.

1. Pencil Holder

2. Wind Chimes

Description: After noticing how much bubly cans we had, I decided to make wind chimes out of them. The reason I chose wind chimes was because I liked the sound of the wind chimes because our neighbors have some and they sound beautiful.

3. Rock Art

Description: I made this because I love nature and I have a lot of rocks in my rock collection. In this picture you can see the sun, the ground, and a bunny.

MM

Chinese Lantern

Description: Chinese new year is a great holiday, even though it is a bit late, I made Chinese lanterns! Their made these out of a red envelope and attached a string on the top with confetti sparkles at the bottom.

Cup Coaster

Description: Have you ever put a drink on the table and left a stain? Well this can fix your problems! Just put the cup on the Coaster and no stains will happen again! It's very simple to make as I made this out of an old plastic badge.

Pencil Holder Dummy

Description: It holds a pencil, it's dumb but effective (sort of). I made it out of a toilet paper roll, tissues for the hair and stabbed a hole for the pencil.

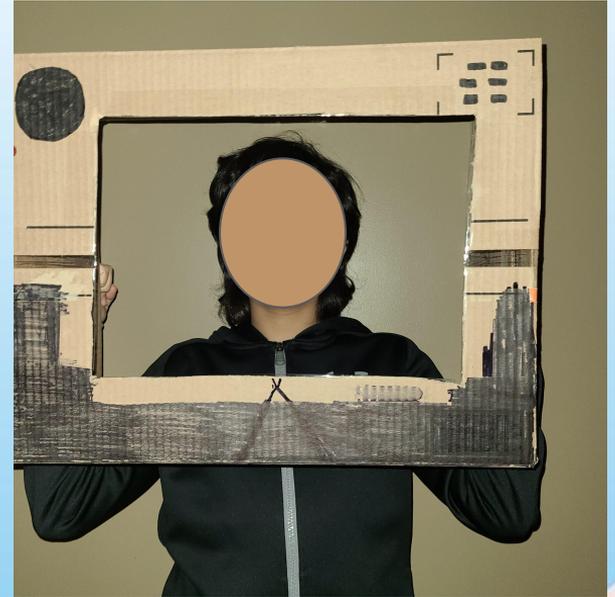

AS

I chose this because I really don't use my DVDs so I wanted to use them for my 2 beautiful birds, the one on the right is named Patricia and the left is George! (their friends)

I chose this because I wanted to become creative and use all the colors I had

I like the material of cardboard so I picked this one and I wanted to become famous, Lol!

MT

Shadow puppet theater

I always had an idea to experiment with my own youtube channel, where I could present my Shadow Puppet Theatre stories in French.

Recyclable paper bag

We have a bunch of plain paper bags that are begging to be designed.

Felty Friends

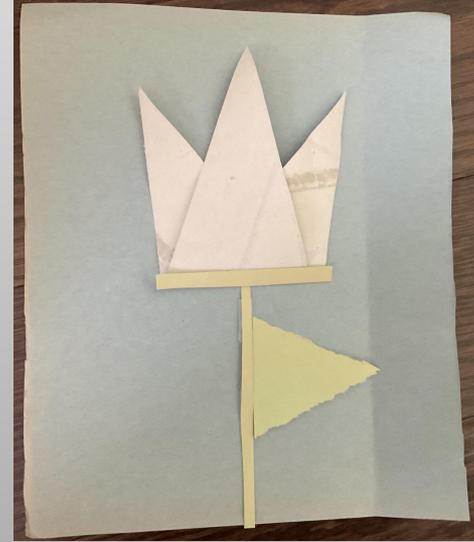

I took pieces of felt and created characters for my theater.

SY

I wanted to create an animal design on the tissue box, and I was going to do a dog, but I didn't have enough colored paper so I took inspiration from a show I used to watch and created a cat-dog (The crown is just for decoration purposes).

I like flowers and I usually design roses like this.

MZ

I chose this because when I was thinking what to do when I saw an empty water bottle on the counter.

I chose this because I like fish.
