

Energy Saving Tips and Tricks.

Visit [this website](#) on Energy Saving Tips and Tricks. Choose 1 tip and make a poster here using Google Draw (In the top Menu bar, select Insert, scroll down to Drawing and choose new).

Use smart automated devices

I would recommend you to use ring and ecobee.

It can turn off by itself even when you forget if you are no longer using a device and turn off the supply.

It saves energy so it will not continue to run.
